**WEBINAR ON
HOW TO MAKE SHORT FILMS
INSIDER'S PERSPECTIVE**

January 16-17 (Sat-Sun), 2021

Time 6-30 pm to 8-00 pm

About ProBono India

Founded in October 2016 with an aim to integrate legal aid and awareness initiatives – ProBono India has ventured into different avenues viz. legal aid, legal awareness, legal intervention, legal journalism, legal activism etc. – all with the underlying objective of contributing to the positive development of the society with a strong socio-legal approach.

The activities at ProBono India include an active dissemination of legal information via the medium of its official website, rolling internship programmes for law students to help them develop a holistic personality with a socio-legal approach to their professional personality, interviews with eminent personalities working at the ground-level offering insights into their successful projects, providing a platform to promote and publish the art of research and legal writing, amongst many others. The team of ProBono India works to promote legal activism as we believe that law and society are two sides of the same coin. Law and society are so inextricably interdependent that to both need to be equally improved in order to lead the world into the desired new order. We at ProBono India believe in a better and brighter tomorrow. We believe not just in being passengers on this drive to change – rather, we aim to drive towards the change.

About Chitrapat Communication

Chitrapat Communication is a Ahmedabad based production company, involved with the production of various audio-visual and communication projects ranging from jingles, content writing, brochure designing to audio-visual production. It was started in 2014, by three cinema enthusiasts passionate and committed for good quality audio visual productions.

About the Webinar

Making a film would have been a dream of almost all of us. With the availability of mobile with high-quality video recording facility, all of us are using videos as a means to express your story. However, these videos hardly come out as polished as the one we see in movies or web-series. This is due to lack of technical understanding of filmmaking language. This webinar aims at giving a basic overview of filmmaking grammar and also help in polishing your basic video making skills, so that you are able to express your story in a more professional way.

The main objectives of the webinar is-

- To enable the participants to understand the the basics of filmmaking, especially through mobile phone
- To give basic idea about the story and screenplay structure
- To explain practical tricks to shoot a particular scene (Mise-en-scène)
- Basics of editing and sound designing
- To use free online resources for making your film

There is **No Registration Fees to attend the webinar**. Certificate of Participation will be given to all.
